SUPPLEMENTARY INFORMATION:

Title: Lacey Act Declaration Requirement; Plants and Plant Products.

OMB Number: 0579-0349.

Type of Request: Extension of approval of an information collection.

Abstract: The Lacey Act, as amended, makes it unlawful to import, export, transport, sell, receive, acquire, or purchase in interstate or foreign commerce any plant, with some limited exceptions, taken, possessed, transported or sold in violation of the laws of the United States, a State, an Indian tribe, or any foreign law that protects plants. The Act also makes it unlawful to make or submit any false record, account or label for, or any false identification of, any plant covered by the Act.

In addition, section 3 of the Act makes it unlawful to import certain plants and plant products without an import declaration. The declaration must contain, among other things, the scientific name of the plant, value of the importation, quantity of the plant, and name of the country from which the plant was harvested. For paper and paperboard products with recycled

plant content, the importer will not be required to specify the species or country of harvest with respect to the recycled plant product component, but will be required to provide the average percentage of recycled content. If the product also contains non-recycled plant materials, the basic declaration requirements still apply to that component of the product imported.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.476953 hours per response.

Respondents: Importers of certain plants and plant products.

Estimated annual number of respondents: 20,352.

Estimated annual number of responses per respondent: 21.

Estimated annual number of responses: 427,392.

Estimated total annual burden on respondents: 203,846 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 31st day of May 2012.

Kevin Shea

Acting Administrator, Animal and Plant Health Inspection Service.
